

Log Based Spider Request/Response Samples

Source: Spider logs from May 7 / May 28 and Java Core connector code.

All customer/account values below are sanitized. The structure, field names, and response wrappers are kept from the logs.

Common method:

POST

Content-Type: application/json

Common successful Spider response wrapper:

```
{
  "code": 200,
  "message": "Approved",
  "data": {}
}
```

1. Login - Customer Details by CIF

Endpoint:

/api/v1/customer-details-cid

Request:

```
{
  "requiredAccountNumber": "121123123121",
  "transactionDetails": {
    "transactionDateTimeLocal": "20260507103554",
    "captureDate": "20260507"
  },
  "functionCode": "200",
  "field125": "CUSTID|100001",
  "processingCode": "370001",
  "accountDetails": {
    "accountNumber": "121123121"
  },
  "stan": "100151449830",
  "channelControllerId": "IDH",
  "acquirerId": "11111"
}
```

Response:

```

{
  "code": 200,
  "message": "Approved",
  "data": {
    "cardNumber": "*****",
    "processingCode": "370001",
    "stan": "100151449830",
    "localTransactionDateTime": "20260507103554",
    "captureDate": "20260507",
    "acquirerId": "11111",
    "authId": "UNI000",
    "responseCode": "000",
    "accountBalance": {
      "ledgerBalance": "+0000000000000000",
      "availableBalance": "+0000000000000000",
      "floatBalance": "+0000000000000000",
      "FFDBalance": "+0000000000000000",
      "userDefinedBalance": "+0000000000000000",
      "balanceCurrencyCode": null,
      "fallbackTime": null
    },
    "requiredAccountNumber": "121123123121",
    "channelControllerId": "IDH",
    "privateReserved": {
      "customerName": "MOCK CUSTOMER",
      "finacleCoreCustomerId": "100001",
      "dateOfBirth": "1990-01-01",

      "gender": "MALE",
      "sector": "8000"
    }
  }
}

```

2. Dashboard - Savings Account Details

Endpoint:

/api/v1/savings-account-details

Request:

```
{
  "requiredAccountNumber": "121123321121",
  "transactionDetails": {
    "transactionDateTimeLocal": "20260507103556",
    "captureDate": "20260507"
  },
  "functionCode": "200",
  "field125": {
    "pageNumberRequested": "1",
    "finacleCoreCustomerId": "100001",
    "accountType": "SBA",
    "recordsPerPage": "99"
  },
  "processingCode": "370000",
  "accountDetails": {
    "accountNumber": "123123123"
  },
  "stan": "100151449872",
  "channelControllerId": "IDH",
  "acquirerId": "11111"
}
```

Response:

```
{
  "code": 200,
  "message": "Approved",
  "data": {
    "cardNumber": "*****",
    "processingCode": "370000",
    "stan": "100151449872",
    "localTransactionDateTime": "20260507103556",
    "captureDate": "20260507",
    "acquirerId": "11111",
    "authId": "UNI000",
    "responseCode": "000",

          "jointCustomerDetails": []
        }
      ]
    }
  }
}

```

3. Dashboard - Current Account Details

Endpoint:

/api/v1/current-account-details

Request:

```

{
  "requiredAccountNumber": "121123321121",
  "transactionDetails": {
    "transactionDateTimeLocal": "20260507103609",
    "captureDate": "20260507"
  }
}

```

```

    },
    "functionCode": "200",
    "field125": {
      "pageNumberRequested": "1",
      "finacleCoreCustomerId": "100001",
      "accountType": "CAA",
      "recordsPerPage": "99"
    },
    "processingCode": "370000",
    "accountDetails": {
      "accountNumber": "123123123"
    },
    "stan": "100151449991",
    "channelControllerId": "IDH",
    "acquirerId": "11111"
  }
}

```

Response:

```

{
  "code": 200,
  "message": "Approved",
  "data": {
    "cardNumber": "*****",
    "processingCode": "370000",
    "stan": "100151449991",
    "localTransactionDateTime": "20260507103609",
    "captureDate": "20260507",
    "acquirerId": "11111",
    "authId": "UNI000",
    "responseCode": "000",
    "requiredAccountNumber": "121123321121",
    "channelControllerId": "IDH",
    "privateReserved": {
      "pageFetched": "LP",
      "numberOfRecordsInPage": "1",
      "finacleCoreCustomerId": "100001",
      "accountTypeRequested": "CAA",
      "accountDetailsInPage": [
        {
          "accountNumber": "101000000001",
          "typeOfAccount": "CURRENT",
          "clearBalanceAmount": "13.93",
          "accountCurrencyCode": "LKR",
          "jointCustomer": "100001",
          "jointCustomerRole": "OWNER",
          "jointCusShortName": "MOCK CUSTOMER",
          "branchId": "LK0010001",
          "lockedAmount": "0",
          "prodGroup": "Current Account - LCY",
          "productId": "CA.CURRENT.P",
          "InternalAmount": "0.00",

```

```

        "accountType": "ACCOUNTS",
        "branchName": "MOCK BRANCH",
        "drawPower": "13.93",
        "accountHolderName": "MOCK CUSTOMER",
        "arrNo": "AA25218QWH7W",
        "accountStatus": "AUTH",
        "floatBalance": "0",
        "customerPostingRestrict": "N",
        "RelatedParty": "N",
        "jointCustMobile": "947700000000",
        "jointCustomerDetails": []
    }
  ]
}
}
}

```

No-record response also appears in logs:

```

{
  "code": 400,
  "message": "No Records Found",
  "data": {
    "code": "E-02",
    "message": "No Records Found",
    "type": "BUSINESS"
  }
}

```

4. Balance - Savings Account Details

Same endpoint/request/response shape as dashboard savings:

/api/v1/savings-account-details

The app can use the same

privateReserved.accountDetailsInPage[].clearBalanceAmount / workingBalance fields for balance display.

5. Balance - Current Account Details

Same endpoint/request/response shape as dashboard current:

/api/v1/current-account-details

The app can use the same privateReserved.accountDetailsInPage[].drawPower / clearBalanceAmount fields for balance display.

6. Account Detail

Endpoint:

/api/v1/account-details

Request:

```
{
  "requiredAccountNumber": "102000000001",
  "transactionDetails": {
    "transactionDateTimeLocal": "20260507103557",
    "captureDate": "20260507"
  },
  "functionCode": "200",
  "processingCode": "820000",
  "accountDetails": {
    "accountNumber": "123121123"
  },
  "stan": "100151449877",
  "channelControllerId": "IDH",
  "acquirerId": "11111"
}
```

Response:

```
{
  "code": 200,
  "message": "Approved",
  "data": {
    "cardNumber": "*****",
    "processingCode": "820000",
    "stan": "100151449877",
    "localTransactionDateTime": "20260507103557",
    "captureDate": "20260507",
    "acquirerId": "11111",
    "authId": "UNI000",
    "responseCode": "000",
    "accountBalance": {
      "ledgerBalance": "+0000000000000000",
      "availableBalance": "372840.37",
      "floatBalance": "0",
      "FFDBalance": "+0000000000000000",
